• Redundancy, or Repetition of generic suffix is another subject.

• It is not necessarily a serious problem, as many established place names include some redundancy.

Sahara – サハラ砂漠 - 사하라 사막
Rio Grande – リオ・グランデ川 - 리오그란데 강
Mekong - メコン川 - 메콩 강
Mont Blanc – モンブラン（山） - 몽블랑 산

• It would be a long way to achieve maps like the ones above, which include both of the countries, but it is profitable for younger generations to know the fact that the neighbors are calling the sea in a different way.

• First step should be maps focus ONLY on the Korean peninsula or the Japanese archipelago.
